Leader Publishing Co.

LIMITED

**Buy Your Advertising
on the Basis of Value**

**The Morning Leader
The Regina Daily Post (Evening)**

with the largest circulation—by many thousands—in Saskatchewan, offer you the best **Value**. They go into more homes and exert a greater influence upon their readers. Therefore advertisers find it pays to use **The Morning Leader, The Daily Post**, and to use them continuously.

The Leader and The Daily Post are the great "Want Ad. Mediums" of the Middle West—the result-getters.

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it, would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out.

Introductory

THE PUBLISHERS take pleasure in presenting herewith the Thirteenth Annual Edition of Henderson's Regina Directory, comprising the territory of the City proper and all adjoining subdivisions.

The Advertising Department presents the names of corporations, firms and individuals who have made Regina the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume, contains statistics and information, much of which is not to be found elsewhere in print.

The value of the street section is often unappreciated by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 2159 Smith Street is wanted: refer to street section Smith Street—glance down to 2159, then to the nearest intersection to 2159. It will be found that this number is on the east side of the street, five houses north of 14th Avenue, between 13th and 14th Avenues.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Regina, which forms a most efficient wholesale and retail buyer's guide.

The Regina Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its industries.

1920 POPULATION OF REGINA, 41,973

These figures are an estimate only, based upon the number of names the Directory contains. It is not a census.

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and fully appreciate the confidence which the business and professional men of Saskatoon have always shown in their publications.

City of Regina

Regina is situated in lat. 50.30, long. 105, 357 miles west of Winnipeg and 1,125 miles east of Vancouver, and is served by the two transcontinental lines, viz., the Canadian Pacific and the Canadian National railways.

The selection of the townsite of Regina was arranged jointly by the Government and the C. P. R. Company. Early in 1883 an officer of the North West Mounted Police was sent to select a suitable place for the headquarters of the force, which had previously been at Winnipeg. On his return the lands at present occupied by the barracks were selected.

At this time an agreement had been completed between the Dominion Government and the railway company to enter into partnership regarding certain townsites, one of which was to be the seat of government for the Northwest Territories. Acting under this agreement, the general manager of the railway company, then W. C. Van Horne, and Mr. Dewdney, the Governor of the Territories, selected four sections, viz.: 19 and 30, township 17, range 19, and 24 and 25, township 24, range 20, west of the second meridian, to constitute the townsite of Regina.

Nominations for the first municipal elections took place on January 3, 1884. Two hundred and thirteen votes were polled, and the following were elected: J. W. Smith, J. A. Kerr, J. D. Sibbald, James Hambley, Daniel Mowat, W. H. Gibbs. Mr. D. L. Scott, now judge of the Supreme Court of Alberta, was the first mayor.

Regina was incorporated as a city on June 9, 1903, and is now the capital and seat of government of the Province of Saskatchewan.

The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands in its own grounds of about 160 acres, south of Wascana Lake and within the city limits.

It has well been said that there are no parliament buildings more dignified or better adapted to the needs of legislative work than those of the Saskatchewan capital.

The building is constructed of Tyndall stone, fireproof throughout, at a cost to date of approximately \$1,900,000, the erection being commenced in the fall of 1908, and the departmental offices occupied in the fall of 1910. The length of the building is about 543 feet, and the height of the dome approximately 187 feet. The central portion is 98 feet in width and 267 feet in depth, with a wing on either side, each 222 feet long and 72 feet in depth.

The City Council is composed of a Mayor and ten Aldermen. The Mayor is elected annually by a vote of the entire city, and commencing with the Municipal Election of December, 1914, the Aldermen have also been elected from the city at large. Prior to that time they were elected annually from the five wards of the city, two representatives to each ward. The bylaw making this change was ratified by the electors on the 10th of August, 1914, and provided for the abolition of the ward system and for the reversion to the system of the election of aldermen by a general vote of the electors.

Regina is undoubtedly the financial centre of the province, and its development in this respect is very remarkable. Eleven of the leading Canadian banks now have branches in this city, the majority of them having erected substantial and elaborate offices of their own.

The Bank Clearing House Association was established in 1909. The clearings for 1910 were \$50,739,159; 1911, \$73,032,088; 1912, \$115,727,648; 1913, \$132,087,457; 1914, \$98,205,541.65; 1915, \$87,122,611; 1916, \$124,349,589; 1917, \$169,800,113; 1918, \$184,624,631; 1919, \$210,898,989.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta.

Regina is justly entitled to be termed one of the best served railway cities in Western Canada. Twelve lines of railway radiate in all directions from the city, and the C.P.R. and C.N.R. vie with each other in their endeavor to give Regina an excellent train service.

The Great Northern Railway has direct communication between Regina, Minneapolis, St. Paul and other southern cities over the Canadian National Railroad Boundary Line. In addition to the lines in operation, bonds have been guaranteed by the Provincial Government for ten additional branch lines, which when completed, will make a total of twenty-two railway lines radiating in all directions from Regina.

Owing to its geographical situation in the heart of the grain growing district of Western Canada, and with unequalled railway facilities, Regina is one of the largest distributing points for agricultural implements in the world, and practically every Canadian and American implement manufacturing firm of any importance has its agency in the city. The advantages for the distribution of other lines of goods are on a par with those for agricultural implements, and Regina has a large number of manufacturing concerns, some 114 wholesale and over 360 retail houses.

During 1915 the Robt. Simpsons Western Limited acquired two blocks of land in the city's warehouse area, and erected a building costing some \$300,000, which it proposes to extend to double its present capacity. It carries on a mercantile mail order business, and will conduct such other mercantile or manufacturing business as may subsequently appear expeditious. The company employed during the first year an average of 300 employees, and now employs some 930 hands.

The Imperial Oil Company, early in 1916, secured some 50 acres of land adjoining the city, whereon they have erected an oil refining plant which cost far in excess of \$500,000. Further large expenditures in the plant in the near future are in contemplation. The company employs some 250 hands. During 1918 this company purchased a block of land and erected thereon some 30 attractive modern houses for its employees, and practically all of these houses are occupied.

During 1916 new warehouses were also constructed by the Prairie Biscuit Co., the Canada West Electric Limited, and the Canadian Consolidated Rubber Company. Warehouses were also secured by other concerns, chiefly the Macdonald Company, wholesale grocers; the Chevrolet Company, automobiles, and the Pat Burns Company, meat packers; the Auto Service Company, and the Producers' Commission Company, Limited.

In 1917 The T. Eaton Co., Limited, purchased from the city two blocks of land, on which they have erected a new mail order house which cost some \$500,000. The company at present handles the heavy lines of goods which it sells, and it employs some 100 hands. The company's plans provide for the addition of a retail store in front of the warehouse when business warrants.

Last year properties were purchased by the Robert Bell Engine & Thresher Company, Limited; McNall & Company; the Winnipeg Ceiling & Roofing Company, Limited; Sanitary Buildings, Limited; Ford Motor Company and Beatty Bros. These new firms have located here under conditions that buildings to the value of at least \$210,000 be erected. Other important negotiations are under way and prospects are exceptionally bright for 1920 in this connection.

The city is a firm believer in municipal ownership, and owns its street railway, of which it has some 30 miles constructed within the city limits; light and water plant, supplying cheap light and power; and water system, the water being obtained from springs distant some eight miles. With regard to the two last mentioned utilities, the city has planned the expansion of the present systems, so that, when complete, they will provide for a population many times the number of the present one, supply sufficient power and provide adequate fire protection throughout the city.

In connection with cheap power, the city has entered into an agreement with Messrs. Coste & McAuley for the supply of natural gas. The city intends to arrange for the distribution of the gas within its limits, retaining full control of the utility, as it has done with its other utilities.

During 1914 the city extended its municipal ownership still further by the establishment of a Municipal Stock Yards on a scale sufficiently large to accommodate all the livestock raised in the province. The yards were opened in September, 1914, and considerable business has been carried on. The ultimate aim of the city, however, is the provision of an up-to-date stock yard to furnish a good market for all stock raised in the country tributary to the city.

Regina is also the headquarters of the Saskatchewan Co-operative Elevator Company and the Grain Growers' Grain Company, both of which have been of remarkable benefit to the farmers, and agriculture generally.

The city's public market, under the control of the Local Council of Women, contributes in no small measure to the welfare of the residents of Regina and to the people in the districts surrounding the city, in providing an open market for the sale and purchase of all kinds of supplies at first cost.

As a residential centre, Regina offers every inducement to the homeseeker. In this respect it has been referred to as "the City of Beautiful Homes."

From the educational and social points of view the city also offers every advantage. With a population of about 40,000, the city has the Regina College, St. Chad's College and the Provincial Government Normal School, all carried out in Gothic treatment, and a Collegiate Institute of classic design. A magnificent college is projected by the Presbyterians, their scheme including the purchase of some three or four hundred acres of ground on which to erect college buildings at a cost of about \$1,000,000, making provision for the education of both sexes, also a hospital and other buildings in connection with same. The Roman Catholics have also expressed their intention of erecting a substantial college. From these points it will be seen that the city, although not fortunate enough to possess a Provincial University, may claim to be the educational centre of the province. In addition to the above, there are some 16 public and separate schools, 29 churches, Y.M.C.A. and Y.W.C.A.; two public hospitals and several private nursing homes; a public library with three branches; several business colleges and numerous societies for the advancement of art, music, literature and science, one daily morning paper, one daily evening paper, two weekly papers and several monthly trade publications.

Regina is one of the best paved cities in Canada for its size, having some 31 miles of paved streets, 75 miles of graded streets, 42 miles of granolithic and 72 miles of plank sidewalks. The city also has some 70 miles of sewer with 6,427 connections; 74½ miles of water mains with 522 hydrants and 3,948 house connections; 4 fire stations with some 52 firemen and a full equipment of the most modern fire fighting apparatus; some 257 acres of parks, a trunk sewer and sewage disposal works, and an incinerator plant for the disposal of garbage.

As to amusements, the city has two theatres and plans for the construction of another are under way. There are also some four moving picture theatres. The lake adjoining the Parliament Buildings offers facilities for boating, bathing and skating. Many fraternal societies and other organizations exist, devoted to amateur theatricals, cards, debates, etc. The city is within easy distance of Last Mountain and Katepwa Lakes, two of the beauty spots of the province and delightful holiday resorts, offering unequalled facilities for bathing, fishing and boating.

Regina's Municipal Buildings would do credit to a far larger city. The funds for their erection have been to a great extent provided by the sale of townsite lands, yet the city still possesses an asset in its saleable property which is valued at some \$1,794,649.

Regina is also the headquarters of Military District No. 12, which comprises the Province of Saskatchewan. This adds much to the business and social life of the city.

Civic Administration

Mayors Since Incorporation

From the date of incorporation as a town, in the year 1883, to the date of incorporation as a city, June 19, 1913:

COMMITTEES OF COUNCIL

At the beginning of 1916 the Council abolished the various Standing Committees and substituted therefore "The Special Committee of the Whole Council," which meets every Friday evening at 7.30 o'clock. This Committee undertakes the duties and performs the functions of the former Standing Committees. The Deputy Mayor is the Chairman.

Sub-Committees are appointed from this large Committee from time to time for the purpose of considering and reporting upon particular subjects and on any matters which may be referred to them.

CIVIC OFFICIALS

Mayor—James Grassick
Commissioner—L. A. Thornton
Solicitor—G. F. Blair
Clerk—G. Beach
Engineer—D. A. R. McCannel
Medical Health Officer—M. R. Bow, M.D.
Auditors—Gladwell, Wilson & Co.
Treasurer—John E. Snowball
Assessor—R. J. Westgate
Superintendent Street Railway—D. W. Houston
Police Magistrate—J. H. Heffernan
Superintendent of Parks—E. Venzke
Superintendent Waterworks—J. M. McKay.
Superintendent Light and Power—E. W. Bull
Chief Constable—M. J. Bruton
Chief of Fire Department—W. A. White
Chief Sanitary Inspector—J. A. Bertwistle
Building Inspector—O. T. Falls
License Inspector—S. T. Lyne
Market Clerk and Weighmaster—James Williams
Cemetery Caretaker—James Fenton
City Hall Janitor—James J. Raven

FIRE DEPARTMENT

The Fire Department is under the control of the City Council. It consists of one Chief, eight Captains, one Mechanic, two Operators and 40 Firemen. The Department is now under the Two-Platoon System, half the members being on day shift and the other half on night shift, the change being made at 8.00 a.m. and 6.00 p.m. each day.
Chief—W. A. White

Central Fire Hall—Headquarters: 1825-1839 Hamilton Street, Phone 99. Equipped with all motor apparatus as follows: Chief's Auto, one Motor Hose and Chemical, one Motor Chemical Engine, one Motor Pumping Engine and Hose Wagon, one Motor 75 foot Aerial Ladder Truck

No. 2 Hall—Corner Scarth Street and Eighth Avenue, equipped with one Hose and Chemical Wagon, one 60 foot Ladder Truck

No. 3 Hall—Corner Robinson Street and Fourteenth Avenue, equipped with one Hose and Chemical Wagon, one City Service Ladder Truck

No. 4 Hall—Corner Winnipeg Street and Victoria Avenue, equipped with one Hose Wagon

There are 522 fire hydrants in the city and 60 alarm stations

POLICE DEPARTMENT

The police department is under the control of the Board of Police Commissioners, consisting of the following:

His Worship the Mayor (Chairman)

J. H. Heffernan

Judge Hannon

It consists of a Chief, one Inspector, Detective Sergeant, two Detectives, three Sergeants, three Patrol Sergeants, two Patrol Drivers, twenty-four Constables, Police Court Clerk, Chief Constable's Clerk and Police Matron.
Police Magistrate—J. H. Heffernan
Chief Constable—M. J. Bruton

STREET RAILWAY

The construction of the street railway as a municipal enterprise was projected in 1910. Actual construction began in the early part of 1911 and operation of cars on same was commenced July 29, 1911. At this time the system consisted of about six miles of track and six cars. At the present time there are about 30 miles of track within the city limits, 14¾ miles of this being in pavement. The rolling stock is as follows:

34 passenger cars
2 sweepers
1 snow plow
1 motor haulage car
30 freight cars

Total expenditure up to December 31, 1914, was \$1,723,830, of which \$266,065 was for cars and car equipment.

Operation statistics for the year ending December 31, 1919, are as follows:

Revenue passengers carried	\$ 6,228,254
Transfer passengers carried	714,870

Total passengers carried	6,943,124
Passenger car mileage	955,376
Other car mileage	20,635

Total car mileage	976,011
Passenger Revenue	306,762.03
Other Revenue	17,258.69

Total Revenue	324,020.72
Operating Expenditure	251,784.79

Operating Surplus	\$ 72,235.93
-------------------------	--------------

ELECTRIC LIGHT AND POWER PLANT

The generating plant at old power house consists of four boilers, aggregating 1,000 H.P.

One 450 K.W. low pressure turbine generating unit.

Two 400 K.W. direct current railway units, vertical engine type.

One 1,200 K.W. motor converter, converting from 2,200 volt three-phase to 600 volt direct current.

No. 2 power house has been completed in which the following additional apparatus is installed: Two 1,500 K.W. high pressure turbine generating units, one 3,000 K.W. high pressure turbine generating unit, one 5,000 K.W. General Electric Curtis high pressure turbine, and six boilers aggregating 3,000 h.p. capacity with Riley mechanical under-feed stokers.

The plant is fitted with all the most modern labor saving devices.

One hundred arc lamps, 496 series nitrogen, and 50 incandescent (used in subways) lamps are in use.

REFUSE DISPOSAL SYSTEM

Regina has now in operation one of the most modern Refuse Disposal Plants on the continent. All refuse collected from the city is hauled to a Central Transfer Station, where it is loaded into steel dump cars. From the Transfer Station, which was specially constructed for this purpose at a cost of \$20,000, the refuse is transferred over the street railway to the incinerating plant at the Disposal Works, a distance of two and a half miles. The Incinerating Plant, recently constructed at a cost of \$64,000, has a capacity of 110 tons per 24 hours and is modern in every particular. It is proposed to utilize the steam generated at the plant to drive the pumps at the Disposal Works and to light the grounds.

WATER WORKS SYSTEM

The water works system is owned and operated by the city. The supply of water is obtained from springs and artesian wells at Boggy Creek, about eight miles northeast of the city. A dam constructed across the Creek impounds about 100,000,000 gallons of water, which replenishes the Creek in times of drought. Forty-five wells have been sunk through clay to the water-bearing gravel bed found at an average depth of 100 feet. These wells overflow and yield pure sparkling water. Regina is in a unique position, as it is the only known instance of a large city deriving the bulk of its supply of water from overflowing artesian wells. A further number of wells will be sunk from time to time as requirements increase. The water is collected into the Barton Pump Well (270,000 gallons capacity), and is raised into the Tor Hill reservoir by means of two 2,000,000 gallons per day turbine pumps driven by oil engines. Tor Hill Reservoir is a circular reinforced concrete construction, has a capacity of 5,000,000 gallons and stands about 125 feet above the city level; it is 202 feet in diameter and the maximum depth of water is 25 feet. The spring water is conveyed by 15-inch vitrified pipe to the compensating basin, and thence by 10-inch cast iron main to the city pumping station. The artesian well water gravitates from Tor Hill reservoir to the city through 18-inch main.

A new rectangular reinforced concrete reservoir is situated near the city pumping station. It is 150 feet long, 153 feet wide and holds 21 feet of water, its capacity is 5,000,000 gallons.

The Compensating Basins have a capacity of 1,065,000 gallons.

There are installed at the city pumping station two 2 1-2 million gallons per day steam driven pumps, which can be operated in parallel or in series and furnish a pressure of 60 and 120 pounds per square inch respectively. There are also two steam driven horizontal direct acting pumps, and two 3 1-2 mill steam turbine driven pumps which can be operated in parallel or in series.

The normal domestic pressure by gravity is 40 pounds per square inch; it can be increased by pumping.

The distributing system consists of two trunk mains 24 inches in diameter, one 18-inch, with a Venturi meter on each line, the gridiron connections range down to six inches.

PARKS

The area of land set aside for park purposes is about 257 acres and is valued with improvements at \$3,300,000.

Wascana Park—Containing about 45 acres and situated to the south of the city, has a frontage of about a quarter of a mile along Wascana Lake, which extends for nearly two miles east, affording excellent facilities for boating, of which full advantage is taken. There is a large boat club building and a boat livery in the park. There is also a bathing house, which is open for the use of the public. A bandstand occupies an appropriate position in the park.

This park, adjoining as it does the ground of the Regina College, and having an outlook over the lake to the Parliament Buildings and grounds, offers excellent facilities for development as an ornamental park.

Victoria Park—Which contains over seven acres, situated in the centre of the city, is laid out as an ornamental garden.

Alexandra Park—Is used as a children's playground and is equipped with suitable gymnastic apparatus.

Stanley Park—During the season of 1915 was replanned and laid out in an appropriate form to suit the surroundings with new walks, flower beds, trees and shrubs. This park forms an appropriate frontage for the Union Depot of the Canadian Pacific and Canadian National Railway Companies.

Educational Information

PUBLIC SCHOOL BOARD

Offices: 1920 Smith Street

Members of the Board—E. B. McInnis (Chairman), R. E. Turnbull,
H. E. Sampson, J. F. Bryant and Mrs. Georgina Muirhead

A. S. Morton, M.A., Librarian
Ethel Tennant, Superintendent of Saskatchewan Hall
E. Grant, Superintendent of Qu'Appelle Hall
L. Macfarlane, Dietitian

COLLEGE OF AGRICULTURE

The College of Agriculture is apart of the University and stands in the same relation to the University as does the College of Arts and Science. It has a number of buildings planned and equipped for carrying on its particular work and a staff of its own for the purpose of giving instruction especially in the technical subjects and elementary work in English, Mathematics and Sciences. Its laboratories and equipment are under certain limitations and restrictions, available to students in the other colleges of the University for the purpose of scientific research.

The aim of the College is to give the students under its care a good, practical training in the different technical subjects that bear

upon the various phases of agriculture, such as animal husbandry, field husbandry, farm mechanics, farm engineering, dairying, horticulture, tree planting and others; to give them a good, liberal education in various other branches such as will enable them to adapt themselves readily, without great loss of time and energy, to new and varied conditions, and to fit them for their duties as good citizens.

Faculty of Agriculture

William John Rutherford, B.S.A. (Tor.), Dean and Professor of Animal Husbandry

Alexander Rodger Greig, B.Sc. (McGill), Professor of Agricultural Engineering

Thomas Nathaniel Willing, Professor of Natural History

Archibald Reichard Weir, B.A. (Sask.), Lecturer in English and Mathematics

Norman Wright, V.S., Lecturer in Veterinary Science

Raymond K. Baker, B.A. (Man.), Professor of Poultry Husbandry

Walter P. Thompson, Ph. D. (Harv.), Professor of Biology

Alexander M. Shaw, B.S.A. (Tor.), Professor of Animal Husbandry

A. E. Potts, M.Sc. (Ames), Professor of Dairying

Norman Ross, Special Lecturer on Horticulture

T. Thorvaldson, Ph. D. (Harv.), Professor of Chemistry

J. S. Dexter, Ph. D. (Col.), Professor of Biology

L. E. Kirk, B.A., B. S. A. (Sask.), Assistant Professor of Field Husbandry

E. A. Hardy, B.S.A. (Iowa State), Professor in Agricultural Engineering

Manley Champlin, M.S.A. (S. Dak.), Professor of Field Husbandry

L. M. Winters, B.S.A. (Iowa State), Assistant Professor of Animal Husbandry

L. E. Kirk, B.S.A. (Sask.), Assistant Professor of Field Husbandry

A. W. Henry, B.S.A. (Sask.), Instructor in Field Husbandry

J. B. Harrington, B.S.A. (Sask.), Instructor in Field Husbandry

Peter Peters, Assistant in Agricultural Engineering

A. G. McGaugan, Ph.D. (Yale), Professor of Physics
